

dBR-D1 VOICE RECORDER

User Manual

Thank you for purchasing this product. This is your Quick Start Guide, which tells you about the basic operations of the recorder. Please read it carefully before using this product.

1. Precautions

Charging

Please do not use the recorder or leave it in a location accessible to children during the charging process.

Protecting Files

Please do not press the power switch to prevent the current recording from being lost during the recording process.

Interference

If placed near other electronic devices, the functions of this device maybe adversely affected. To prevent this, please keep this recorder away

from such other devices.

Backup

We recommend backing up your files regularly to prevent loss of data due to external errors or operation failure.

Transfer of Data

Do not disconnect the recorder from your computer during the data transfer process to prevent data loss.

10. Speaker

dBR-D1 Voice Recorder

11.USB port

12.Power switch

13.Expansion CARDS

14.Menu button

3.Charging

The power switch on the recorder must be ON. Please connect the recorder to your computer via the USB cable (supplied).

Insert the micro USB end of the cable to the recorder, and the USB end to the USB port of a computer which is ON. You may also use a phone charger.

When the recorder is charging, the screen will show the battery charge indicator at the top right.

4. Turning Power On

Turn on the power switch and turn on the recorder.

5. Turning Power Off

Slide down the “Power switch”, and the recorder is switched OFF.

❖ Hint

When the recorder is not in playback mode, and if there is no activity for 5 minutes, the recorder will power off automatically. This is the auto power off function and can be set in the menu under “Auto Switch Off”.

6. Record/SAVE

- Turn on the recording switch to enter recording mode.
- Place the recorder so that the built-in microphones face the direction of the source to be recorded.
- The new file will be automatically recorded as the last file in the current folder.
- Slide down the “Record/Save button”, in the direction of “SAVE” to stop and save your

recording.

7. Play

- Press the “**M**” key on the side of the device to switch between the Recording folder/Music folder. Press “▶||” to play.
- Press “◀◀” or “▶▶” button to select the file you want to playback, and then press “▶||” button to start playing the file.
- Press “+” or “-” button to adjust the volume.
- Press “▶||” button to Pause play.

8. "A-B" Repeat Play

- In PLAY mode, press "M" to select "A". Once "A" starts flashing on the screen, press this button again to select "B", and then the segment "A-B" of the file will start repeating.
- Once selected, it will repeat and play back the A-B interval
- Press "M" again to cancel.

9. Delete

- When the recorder is in standby mode (not playing a file), select the file you want to delete, hold down "+" or "-" key to enter.
- Press "◀◀" or "▶▶" buttons to

dBR-D1 Voice Recorder

select “No”/“Yes”/“Delete all”. Press "▶||" to confirm your choice.

- “No”: Cancel the Delete process.
- “Yes” : Delete single file.
- “Delete all” : Delete all files in folder.
- Press the “▶||” button to confirm.
- Press “M” to return standby mode.

❖ Note

Once a file has been erased, you cannot retrieve it.

10.MP3 Function

- Download music to the root directory of the machine through USB.
- Press “M” to enter the MP3 player interface.
- Play music just like playing a recording file.

11. Recording Settings

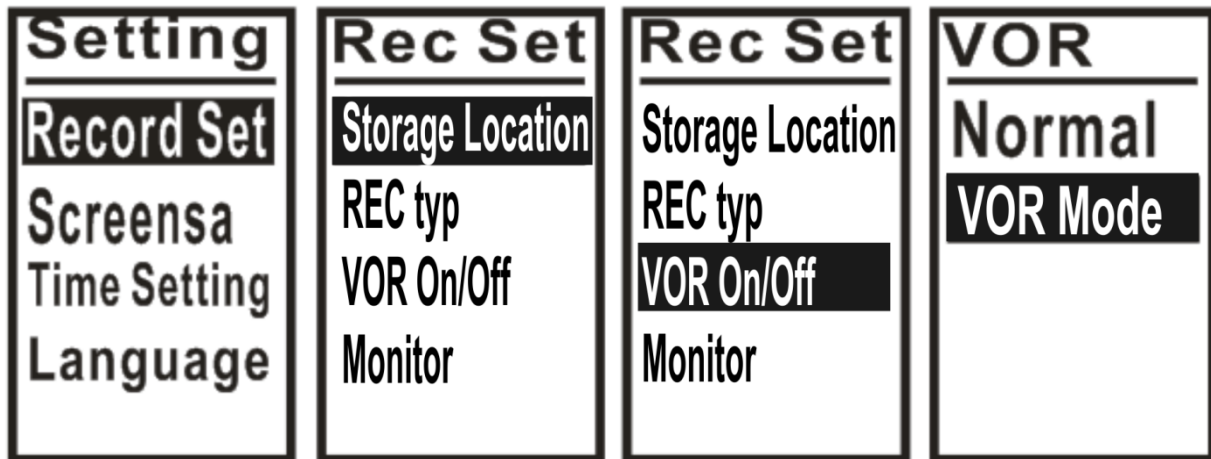

In standby mode, hold down "M" button to enter.

- ❖ For scrolling through the options, press the

dBR-D1 Voice Recorder

“▶||” button to select, press the “M” key to exit.

- Press “▶▶” to select the recording settings, press the “▶||” to enter.

1) Storage Location

Press "▶▶" briefly, then select "memory", "card", and then press "▶||" to save your recording in your preferred location storage. Press "M" to exit.

2) Record type

- a. 384K BPS
- b. 192K BPS
- c. 128K BPS
- d. 64K BPS
- e. 32K BPS

3) Recorder Mode (VOR on/off)

- a. Normal Mode

b. VOR Mode (Voice Activated Recording)

❖ Note

In VOR mode, if the ambient noise level exceeds -40dB, the recorder will start recording. If the ambient noise level drops below this threshold, it will stop recording and resume once the threshold is exceeded. If you want to be ready to record at short notice, you can use this feature, keeping in mind the noise threshold.

4) Recording Monitor: Use this feature

for live monitoring during a recording. This feature needs earphones to be used.

a.Disable

b.Enable

5) Noise Reduction: Here you can set the level of noise reduction you prefer.

6) VOR Level
